SUMMARY

Results-driven Data Analyst skilled in Python and SQL, with hands-on experience transforming raw data into actionable insights to enhance decision-making. Demonstrated strong communication and problem-solving abilities while developing impactful dashboards and optimizing data pipelines, leading to improved project outcomes.

EXPERIENCE

Data Analyst

Cybex School of IT Professionals , Faisalabad , Punjab

- 6+ Month Experience
- Cleaned and transformed raw datasets into structured formats for further analysis.
- Conducted data-driven analytics to identify gaps and proposed solutions.
- Developed dashboards and data visualizations to represent complex data sets.
- Utilized Python libraries such as NumPy and Pandas for data manipulation tasks.
- Implemented best practices in data visualization techniques to effectively communicate results.
- Created reports based on user-defined criteria to facilitate decision-making
- Developed SQL scripts to automate data validation and analysis processes.

PROJECTS

E-commerce Sales Dashboard

Developed an interactive dashboard to analyze sales performance and business insights.

- Tools: Power BI, Excel
- Created KPIs including Total Sales, Profit, Orders, and Quantity
- Used slicers and filters for dynamic data exploration
- Identified top-performing products and revenue trends

Motorola Mobile Sales Analysis

Analyzed mobile sales data to identify trends and improve decision-making.

- Tools: Excel, Power BI
- Cleaned and transformed raw data for analysis
- Created visual reports showing sales vs profit
- Highlighted best-selling models and seasonal demand patterns

EDUCATION

Bachelor of Computer Science

Sep 2023 – Jul 2027

Govt. Post Graduate College , Samanabad , FSA

KEY SKILLS

- Excel and Power BI software
- Python programming
- Data cleaning and analysis
- SQL and databases
- Problem solving
- Effective communication
- Trend analysis
- Business analysis
